

BLADE U-SHAPE WORKSTATION

Includes Add-ons **A1** | **A4** | **A5** | **A6** | **A7** | **A8** | **A9**

*General Guide | See Master Plan

EDITION CODE

BL-6-1 - BLADE U-Shape	1
BL-6-2 - BLADE U-Shape with 72" Surfaces	5
BL-6-3 - BLADE U-Shape with Steel Storage	9

Add-Ons

A1 - BLADE Cable Tray (Surface Mounted)	12
A4 - Modesty Panel	15
A5 - Laminate Inset End Panels	17
A6 - Laminate Surface-Height End Panels	19
A7 - Laminate Divider-Height End Panels	19
A8 - Steel Inset End Panels	21
A9 - Transaction Counter	23

BLADE U-SHAPE

BL-6-1

PARTS LIST

QTY	PRODUCT CODE
2	BL30
2	BL24
2	BLPB2
2	Main Surface
1	Return Surface
1	Surface Support Bar
1	Flat Bracket

1 | JOIN END LEGS WITH BEAM

Insert the beam tabs into the leg brackets.

Guide the beam tabs into the bracket holes, ensure that there is no gap between the beam and legs. Using a rubber mallet, hammer the beam to lock in place.

2 | BOLT DOWN BEAM-TO-LEG LOCK PLATE

Note: The beam lock plates will not fit if there is a gap between the beam and the leg.

3 | MEASURE AND ADJUST BEAM WIDTH

Measure from end leg to end leg until you find the approximate width of the work surface. Insert the screw through the overlapping beam slots and into the black plastic piece. Slightly tighten the screw, **DO NOT** fully tighten.

Insert Beam Grommet Covers.

4 | SECURE THE SURFACE

Position the surface on the desk frame. Align the outer sides of the surface flush and parallel with the outer sides of the end legs, adjust if not flush. Insert wood screws into the leg brackets and secure to the underside of the surface.

REPEAT STEPS TO ASSEMBLE SECOND WORKSTATIONS

5 | SECURE RETURN TO MAIN SURFACE

Secure the flat plates to the edge of the main surface with half of the plate extended over the edge of the surface. Place the support bar to the approximate center of the flat plates and secure to the underside of the surface.

Align return surface to the back edge of assembled workstation and secure flat plates and support bar with wood screws.

6 | ATTACH SECOND WORKSTATION TO RETURN

Align second workstation with return so that the back edge is flush. Secure the flat plates with wood screws into the underside of the surface both surfaces.

Insert final wood screws and tighten beam locks.

PARTS LIST

QTY	PRODUCT CODE
2	BL30
2	BL24
1	BLPB2
1	BB3 & BBC1 - Beam to Beam Connector Bracket
2	BASB72 (*will be added if surface is 72" or larger)
2	BFB1
2	Main Surface
1	Return Surface

REFER TO **PAGES 1&2** TO COMPLETE **STEPS 1-3** OF BLADE FRAME ASSEMBLY

1 | ATTACH CONNECTOR BRACKETS TO BB3 BEAM

After completing the BLADE frame assembly, place a beam connector on the facing edges of each frame. Guide the beam tabs into the bracket holes, ensure that there is no gap between the beam and legs. Using a rubber mallet, hammer the beam to lock in place.

2 | SECURE FIRST SURFACE

Position the surface on the desk frame. Align the outer sides of the surface flush and parallel with the outer sides of the end legs. Adjust beam positions if sides are not flush. Fasten the surface to the desk frame with wood screws through the leg brackets into the underside of the surface.

3 | SECURE SECOND SURFACE

Position the surface on the desk frame. Align the outer sides of the surface flush and parallel with the outer sides of the end legs. Adjust beam positions if sides are not flush. Fasten the surface to the desk frame with wood screws through the leg brackets into the underside of the surface.

4 | SECURE THIRD SURFACE

Secure the flat plates to the edge of each surface, facing towards the inside of the workstation, with half of the plate extended over the edge of the surface.

Place final surface over exposed BLADE beam and align with back edge of workstation and secure with wood screws to flat plates.

5 | FINAL STEPS

Insert final wood screws and tighten beam locks.

PARTS LIST

QTY	PRODUCT CODE
2	BL30
1	BLPB2
2	BASB72 (*will be added if surface is 72" or larger)
2	BFB1
1	Main Surface
1	Return Surface
1	Steel Lateral Storage

REFER TO **PAGES 3-5** TO COMPLETE **STEPS 1-5** OF BLADE FRAME ASSEMBLY

1 | SECURE SECOND SURFACE TO LEG

Secure the BL24 leg to the return surface.

Insert wood screws through the leg bracket, and into the underside of the surface.

2 | PLACE STORAGE AND DESK IN POSITION

Place return surface with leg on top of storage piece and align front and side edges of surface flush with storage piece.

3 | SECURE THIRD SURFACE

Align assembled L-Shape workstations with return so that the back edge is flush. Secure the flat plates with wood screws into the underside of both surfaces.

4 | FINAL STEPS

Insert final wood screws and tighten beam locks

PARTS LIST

QTY	PRODUCT CODE
1	BCTSM (set of 2)
1	BTEC or BNTEC (set of 2) *if applicable

IF WORKSTATIONS HAVE POWER, REFER TO **BL-8** BLADE POWER GUIDE

1 | ATTACH TRAY HANGERS AND END CAPS*

Align slots on the cable tray and secure with two bolts from the bottom. These hangers will mount to a blade workstation. Insert Beam Grommet Covers.

***NOTE:** End Caps (BTEC) are optional, follow the same install process with or without end caps.

2 | INSERT BEAM LOCK

Adjust BLADE cable tray to approximate width of surface. Insert the screw through the overlapping beam slots and into the black plastic piece. Slightly tighten the screw with only a few turns. **DO NOT** fully tighten.

3 | SURFACE MOUNT CABLE TRAY

Align cable tray flush to the edge of the surface (on 24" or 30" surfaces). Insert wood screws through the hangers and into the underside of the surface.

Tighten beam lock.

NOTE: Position may be affected if modesty panel is being installed.

IF WORKSTATIONS HAVE POWER, REFER TO **BL-8** BLADE POWER GUIDE

PARTS LIST

QTY	PRODUCT CODE
1	Bracket (one set)
1	BMP##/GLMP##

* Process is the same for steel and laminate

1 | SECURE BRACKET TO MODESTY PANEL

Using 4 machine screws, secure brackets to the back of the steel modesty panel.

Using 4 wood screws, secure brackets to the back of the laminate modesty panel.

NOTE: Holes are not pre-drilled on laminate panels.

2 | ATTACH MODESTY PANEL TO WORKSTATION

Center the panel in reference to the width of the surface and screw modesty panel directly to the bottom of your surface with wood screws.

NOTE: Bracket may pass under the grommet, in this case, use wood screws at the end of the bracket.

PARTS LIST

QTY	PRODUCT CODE
4	LEPBL1
1	GBEP##

* Quantities are for one panel

1 | SECURE BRACKET TO END LEGS

Attach two brackets to each BLADE end leg using the self-tapping screws.

1. Inset – The back of the bracket will align flush with edge of the leg.
2. Flush – The back of the bracket will be $\frac{9}{16}$ " from the edge back edge of the leg.

2 | ATTACH END PANEL

Slide end panels into place and adjust until flush with bracket. Use 2 wood screws to secure panel to each bracket.

END PANELS

BL-6 | A6 & A7

PARTS LIST

QTY	PRODUCT CODE
4	LEPBL1
1	GBEPLH## or GBEPSS##

* Quantities are for one panel

1 | SECURE BRACKET FOR OUTER PANELS TO END LEGS

Attach 4 brackets to each BLADE end leg using the self-tapping screws.

The front of the bracket will align flush with outside edge of the leg.

2 | ATTACH END PANEL

Slide end panels into place and adjust until flush with bracket. Use 2 wood screws to secure panel to each bracket.

PARTS LIST

QTY	PRODUCT CODE
1	BEP##

* Quantity is for one panel

1 | SECURE PANELS TO END LEGS

Slide the end panel into place and adjust until either flush with outside of leg or slightly recessed.

2 | ATTACH END PANEL

Use 4-6 self-tapping screws to secure panel to each leg.

PARTS LIST

QTY	PRODUCT CODE
1	<p>KIT-GTC1259</p> <p>Includes: 1 Frosted Iass Transaction Counter, 1 Threaded Rod, 3 Stainless Steel Tubes, 3 C-Cover, 3 C-Bases</p>

1 | THREAD ROD INTO GLASS

Place glass facing upward and thread the rod into the pre-installed glass fittings.

NOTE: Repeat for all three rods.

2 | SLIDE STAINLESS STEEL TUBE OVER ROD

Lower the tube over the threaded rod and position the to rest flush over the glass fitting.

NOTE: Repeat for all three stainless steel tubes.

3 | SLIDE BASE COVER OVER TUBE

Lower the base cover over the tube and let it rest on top of the glass fitting.

NOTE: Repeat for all three base covers.

4 | SLIDE BASE INTO TUBE AND TIGHTEN

Place the base fitting into the end of the tube, make sure it is flush. Thread the nut onto the exposed threaded rod and tighten.

NOTE: Repeat for all three base fittings.

5 | MARK PLACEMENT OF COUNTER

Align counter to center of surface and mark approximate area for mounts using 3 strips of tape. Use a measuring tape to mark 5" from the surface edge on each piece of tape.

6 | PLACE STAND ON TAPE MARKS AND ALIGN

Align the front edges of the stand bases with the marks on the tape. Insert 1 wood screw through the center stand and remove tape. Reposition the two outer stands to their aligned marks (if needed).

Secure each stand with 4 wood screws each.

Workspace made easy
